

Sinclair Broadcasting's decision to air an anti-Kerry documentary just days before the presidential election without airing a pro-Kerry documentary is an unjust, partisan and inappropriate use of our public airways. If Sinclair proceeds with this plan, it can unfairly influence the elections because this program will reach a large segment of the electorate. Sinclair should be stopped or forced to allot equal time to air a pro-Kerry program. Further, unfair practices that violate the good of the community should be grounds for suspending a license to operate. Sinclair is clearly violating the public trust and threatening our democracy.
